About

I am an incoming Computer Science Ph.D. student at the University of California, Riverside. I will be continuing my work on machine learning research problems with Professor Vagelis Papalexakis. Currently, we explore interdisciplinary research applications of tensor decomposition, mainly for the surrogate modeling of combinatorial problems. I am also a summer intern at the Lawrence Livermore National Laboratory (LLNL) Data Science Institute.

Education

Ph.D. in Computer Science Starting Sept. 2025
University of California, Riverside

· Advisor: Prof. Vagelis Papalexakis

B.S. in Data Science & Engineering Sept. 2021 – June 2025
University of California, Riverside

· Upper Division GPA: 3.9

Research Experience

Graduate Research Intern Summer 2025
Lawrence Livermore National Laboratory

· Selected to be a LLNL 2025 DSSI graduate intern

Undergraduate Data Science Researcher Sept. 2024 – June 2025
University of California, Riverside

· Led research work on using tensor completion to predict material properties (e.g. energy, band gap)
· Presented preliminary work [2] at AAAI 2025 Bridge on Knowledge-Guided Machine Learning
· Extended work into full paper (currently in submission process)

NSF REU Research Intern Summer 2024
University of California, Riverside

· Led team of 3 undergraduates in research project, in collaboration with UCR Ph.D. students
· Presented full conference paper [1] at IEEE International Conference on Big Data 2024
· Modeled hyperparameter tuning, neural network architecture search, and SQL query cardinality estimation as tensor completion problems to predict their optimal configurations
· Developed task-specific tensor completion algorithm to cut parameters without losing performance

Undergraduate Bioinformatics Researcher March 2024 – Dec. 2024
University of California, Riverside

· Worked on bioinformatics research problems using machine learning, for protein sequence analysis
· Conducted literature reviews, and experimented with data processing techniques and ESM (LLM)

Papers

Conference

[1] Shaan Pakala, B. Graw, D. Ahn, T. Dinh, M. T. Mahin, V. Tsotras, J. Chen, E. Papalexakis, "Automating Data Science Pipelines with Tensor Completion," *IEEE International Conference on Big Data 2024*. **Received Student Travel Award.** [Link] [PDF] [Code]

Poster

[2] Shaan Pakala, D. Ahn, E. Papalexakis, "Tensor Completion for Surrogate Modeling of Material Property Prediction," *AAAI 2025 Bridge on Knowledge-Guided Machine Learning.* [PDF] [Venue]

Awards

Dean's Distinguished Award 2025
Bourns College of Engineering (University of California, Riverside)

Outstanding Undergraduate Research Spotlight 2025
Bourns College of Engineering (University of California, Riverside)

Student Travel Award 2024
IEEE International Conference on Big Data

Chancellor's Honor List 2023 – 2024
University of California, Riverside

Other Experience

Computer Science Grader Spring 2024
University of California, Riverside

- Grader for upper division Data Analysis Methods (CS 105 at UCR)
- Facilitated lab and project demos, as well as graded quizzes and reports

Data Science Challenge July 2023
Lawrence Livermore National Laboratory

- Participated in the Data Science Challenge, to develop data-driven approaches to cardiology problems
- Used electrocardiogram time-series data to create machine learning disease classification tool, as well as displaying 3D activity map of heart (electrical activity of 75 locations in the heart over 500ms)
