## About

---

I am an incoming Computer Science Ph.D. student at the University of California, Riverside. I will be continuing my work on machine learning research problems with Professor [Vagelis Papalexakis](#). Currently, we explore interdisciplinary research applications of tensor decomposition, mainly for the surrogate modeling of combinatorial problems. I am also a summer intern at the Lawrence Livermore National Laboratory (LLNL) [Data Science Institute](#).

## Education

---

### **Ph.D. in Computer Science**

Starting Sept. 2025

*University of California, Riverside*

- Advisor: Prof. Vagelis Papalexakis

### **B.S. in Data Science & Engineering**

Sept. 2021 – June 2025

*University of California, Riverside*

- Upper Division GPA: 3.9

## Research Experience

---

### **Data Science Research Intern**

June 2025 – Present

*Lawrence Livermore National Laboratory*

- LLNL [DSSI](#) graduate intern in the predictive biology group
- Advisors: Drs Braden Soper & Priyadip Ray

### **Data Science Research Assistant**

Sept. 2024 – Present

*University of California, Riverside*

- Worked on surrogate modeling for material property prediction [2]
- Also worked on efficient image generation (GANs & Diffusion models) via tensor decomposition [3]

### **NSF REU Research Intern**

June 2024 – Sept. 2024

*University of California, Riverside*

- Led work on predicting performance of hyperparameter combinations and SQL queries' cardinality
- Presented full conference paper [1] at IEEE International Conference on Big Data 2024

### **Bioinformatics Research Assistant**

March 2024 – Dec. 2024

*University of California, Riverside*

- Worked on bioinformatics research problems using machine learning, for protein sequence analysis
- Conducted literature reviews, and experimented with data processing techniques and [ESM](#) (LLM)

## Papers

---

### Conference

- [1] [Shaan Pakala](#), B. Graw, D. Ahn, T. Dinh, M. T. Mahin, V. Tsotras, J. Chen, E. Papalexakis, “Automating Data Science Pipelines with Tensor Completion,” *IEEE International Conference on Big Data* (2024). **Received Student Travel Award.** [[Link](#)] [[PDF](#)] [[Code](#)]

### Workshop

- [2] [Shaan Pakala](#), D. Ahn, E. Papalexakis, “Tensor Completion for Surrogate Modeling of Material Property Prediction,” *AAAI Bridge on Knowledge-Guided Machine Learning* (2025). [[PDF](#)]
- [3] P. Goulart\*, [Shaan Pakala](#)\*, E. Papalexakis, “Efficiently Generating Multidimensional Calorimeter Data with Tensor Decomposition Parameterization,” *ICCV Workshop on Representation Learning with Very Limited Resources* (2025). [[PDF](#)]

\* denotes equal contribution

## Awards

---

<b>Undergraduate Research Spotlight</b> <i>Bourns College of Engineering (University of California, Riverside)</i>	2025
<b>Student Travel Award</b> <i>IEEE International Conference on Big Data</i>	2024
<b>Chancellor’s Honor List</b> <i>University of California, Riverside</i>	2023 – 2024

## Other Experience

---

<b>Computer Science Grader</b> <i>University of California, Riverside</i>	Spring 2024
<ul style="list-style-type: none"><li>· Grader for upper division Data Analysis Methods (CS 105 at UCR)</li><li>· Facilitated lab and project demos, as well as graded quizzes and reports</li></ul>	
<b>Data Science Challenge</b> <i>Lawrence Livermore National Laboratory</i>	July 2023
<ul style="list-style-type: none"><li>· Participated in the <a href="#">Data Science Challenge</a>, to develop data-driven approaches to cardiology problems</li></ul>
