About

I am an incoming Computer Science Ph.D. student at the University of California, Riverside. I will be continuing my work on machine learning research problems with Professor Vagelis Papalexakis. Currently, we explore interdisciplinary research applications of tensor decomposition, mainly for the surrogate modeling of combinatorial problems. I am also a summer intern at the Lawrence Livermore National Laboratory (LLNL) Data Science Institute.

Education

Ph.D. in Computer Science

Starting Sept. 2025

University of California, Riverside

· Advisor: Prof. Vagelis Papalexakis

B.S. in Data Science & Engineering

Sept. 2021 – June 2025

University of California, Riverside

· Upper Division GPA: 3.9

Research Experience

Graduate Data Science Intern

Summer 2025

Lawrence Livermore National Laboratory

· Selected to be a LLNL 2025 DSSI graduate intern

Undergraduate Data Science Researcher

Sept. 2024 – June 2025

University of California, Riverside

- · Led research work on using tensor completion to predict material properties (e.g. energy, band gap)
- · Presented preliminary work [2] at AAAI 2025 Bridge on Knowledge-Guided Machine Learning
- · Extended work into full paper (currently in submission process)

NSF REU Research Intern

Summer 2024

University of California, Riverside

- · Led team of 3 undergraduates in research project, in collaboration with UCR Ph.D. students
- · Presented full conference paper [1] at IEEE International Conference on Big Data 2024
- · Modeled hyperparameter tuning, neural network architecture search, and SQL query cardinality estimation as tensor completion problems to predict their optimal configurations
- · Developed task-specific tensor completion algorithm to cut parameters without losing performance

Undergraduate Bioinformatics Researcher

March 2024 - Dec. 2024

University of California, Riverside

- · Worked on bioinformatics research problems using machine learning, for protein sequence analysis
- · Conducted literature reviews, and experimented with data processing techniques and ESM (LLM)

Papers

Conference

[1] Shaan Pakala, B. Graw, D. Ahn, T. Dinh, M. T. Mahin, V. Tsotras, J. Chen, E. Papalexakis, "Automating Data Science Pipelines with Tensor Completion," *IEEE International Conference on Big Data 2024.* Received Student Travel Award. [Link] [PDF] [Code]

Poster

[2] <u>Shaan Pakala</u>, D. Ahn, E. Papalexakis, "Tensor Completion for Surrogate Modeling of Material Property Prediction," *AAAI 2025 Bridge on Knowledge-Guided Machine Learning*. [PDF] [Venue]

Awards

Dean's Distinguished Award Bourns College of Engineering (University of California, Riverside) Outstanding Undergraduate Research Spotlight Bourns College of Engineering (University of California, Riverside) Student Travel Award IEEE International Conference on Big Data Chancellor's Honor List University of California, Riverside

Other Experience

Computer Science Grader

Spring 2024

University of California, Riverside

- · Grader for upper division Data Analysis Methods (CS 105 at UCR)
- · Facilitated lab and project demos, as well as graded quizzes and reports

Data Science Challenge

July 2023

Lawrence Livermore National Laboratory

- · Participated in the Data Science Challenge, to develop data-driven approaches to cardiology problems
- · Used electrocardiogram time-series data to create machine learning disease classification tool, as well as displaying 3D activity map of heart (electrical activity of 75 locations in the heart over 500ms)
